New York Oncology Forum will be hosted by Chinese American Hematologist Oncologist Network (www.CAHON.org) in the Sheraton La Guardia East in Flushing, New York on October 3, 2015, Saturday.

The target audience are clinicians, nurses, pharmacists, medical students, clinical fellows as well as laboratory scientists working in the related areas. This is an educational program.

There will be separate satellite symposia at lunch time. An exhibition area will be setup away from the conference room at the same time for pharmaceutical companies, financial companies, pharmacies, and commercial laboratories to showcase their products and services. There will also be special sessions focusing on issues related to clinical practice, training, and career paths. Active CAHON members will give presentations focusing on latest developments in the fields of hematology and oncology. Drug development and molecular diagnosis will be included. The learning objectives are (1) updates on novel agents and regimens for cancer diagnosis and therapy; (2) updates and guidance for

molecular diagnosis, drug development, and precision therapy; (3) recommendations and guidance on clinical training and career paths.
