

CAHON Calls Members for Service as It Celebrates the Tenth Anniversary

September 27, 2015

Greetings CAHON members,

We hope that this note finds all of you in great spirits as you and your loved ones are celebrating the Moon Festival!

The CAHON meeting next week in New York City officially marks the 10th anniversary of CAHON. It is amazing how much we have accomplished together to promote our CAHON members and positively impact the field of hematology and oncology in both the US and China. We have a jam-packed program for the meeting that will showcase the talents of the CAHON members and highlight the accomplishments of CAHON in its first decade. We are looking forward to meeting with you and thanking all of you in person for your tremendous contribution to this organization of our own.

We are just as excited about the growth of our organization in the next decade. More details will be laid out by the president's report next week. Of course, nothing can be achieved without the unwavering support and contributions by you - our proud CAHON members. Thus, we are writing to urge you to consider how much more you can personally serve CAHON. As the CAHON leadership transitions next year, it is our hope that we will have a wave of passionate and energetic members to step up to contribute to shaping the future of CAHON. You can visit www.cahon.org to get more familiar with the executive structure and the bylaws of CAHON. It is our plan to assemble a fantastic executive team that is second to none. Simply put, we are asking you to volunteer your best service to CAHON!

Interested and dedicated members, please voice your enthusiasm and desire to serve along with your qualifications in one of the specific committees of CAHON by writing directly to us.

Thank you and we wish you all the best in all your endeavors.

Sincerely,

Jing-Zhou Hou, M.D., Ph.D.
President, CAHON (2014-2016)
houj@upmc.edu

Zihai Li, M.D., Ph.D.
President-elect, CAHON (2016-2018)
zihai@musc.edu

On behalf of the CAHON executive team
