New York Oncology Forum will be hosted by Chinese American Hematologist Oncologist Network (www.CAHON.org) in the New York LaGuardia Airport Marriott, New York on November 19 and 20, 2016.

The target audiences are clinicians, nurses, pharmacists, medical students, clinical fellows as well as laboratory and health care related scientists working in the related areas. This is a non-CME educational program.

There will be separate satellite symposia at lunch time. An exhibition area will be setup away from the conference room at the same time for pharmaceutical companies, financial companies, telecommunication services, pharmacies, and commercial laboratories to showcase their products and services. There will also be special sessions focusing on issues related to clinical practice, telemedicine, medical training, and career paths. Telemedicine, drug development and molecular diagnosis will be included.

The learning objectives are:

- updates on novel agents and regimens including cellular therapy and immune checkpoint blockers for cancer diagnosis and therapy;
- updates and guidance for molecular diagnosis, drug development, and precision therapy;
- recommendations and guidance on clinical training and career paths.;
- principle and practices of telemedicine.
